1 Move 5

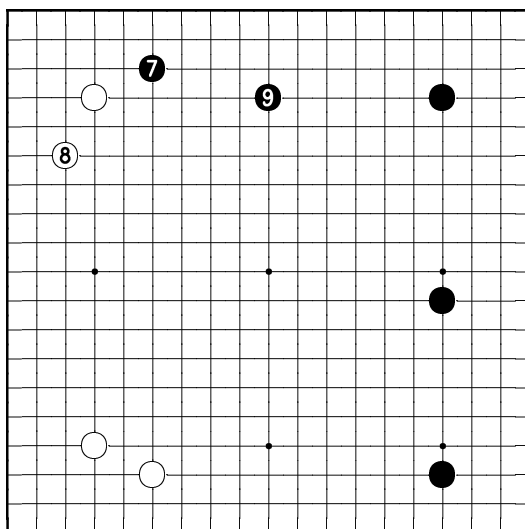

These were my four ideas...

A makes more sense (I think) if my triangle stone is at D3...

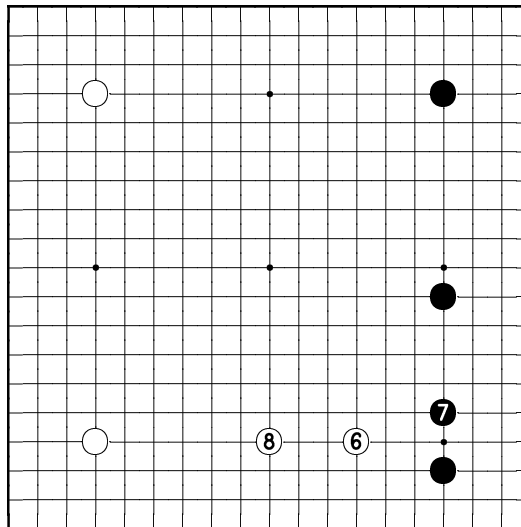

After looking at variations, I'm not such a fan of A

2 Move 9

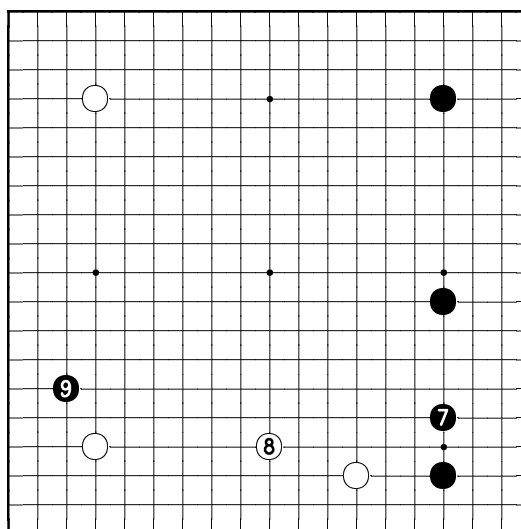

Is ths too good for black?

3 Move 8

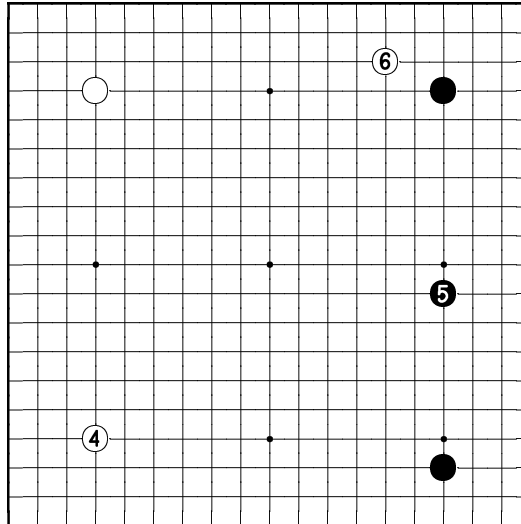

So much influence

4 Move 9

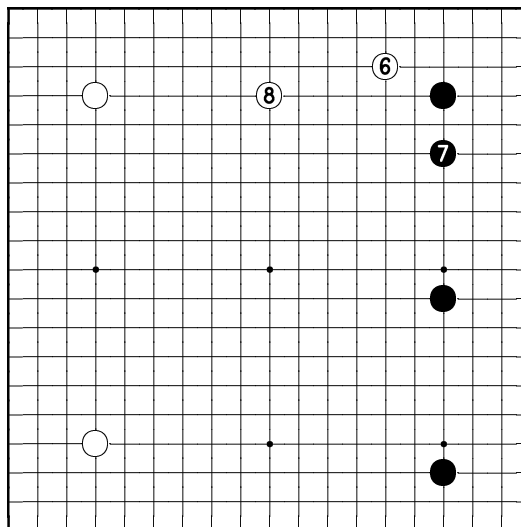

Playable... but I will have to invade hard later if black makes a large framework.

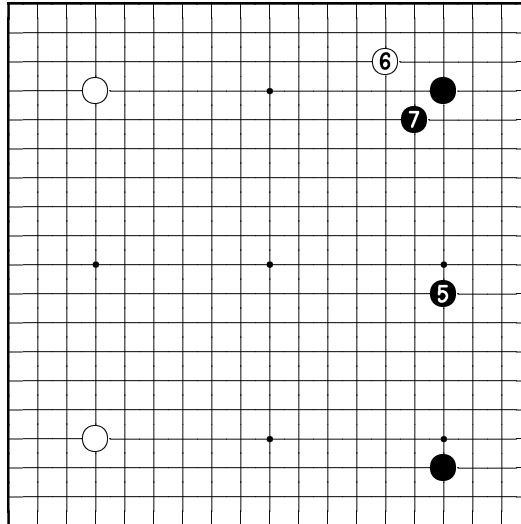

5 Move 6

6 Move 8

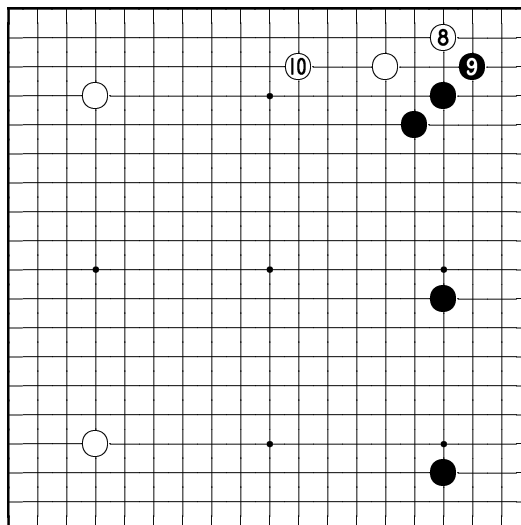

7 Move 7

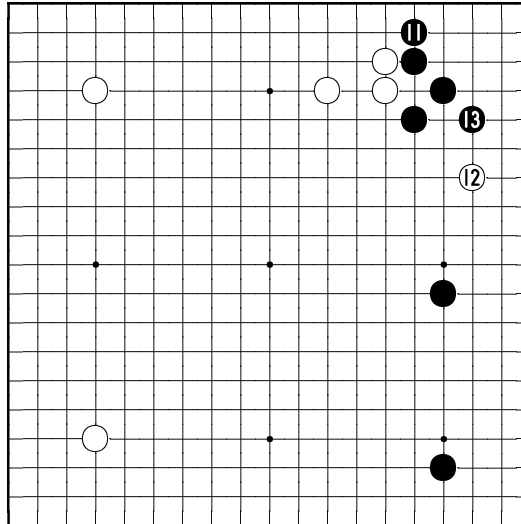

Guh... this is the beginning of my struggles...

8 Move 10

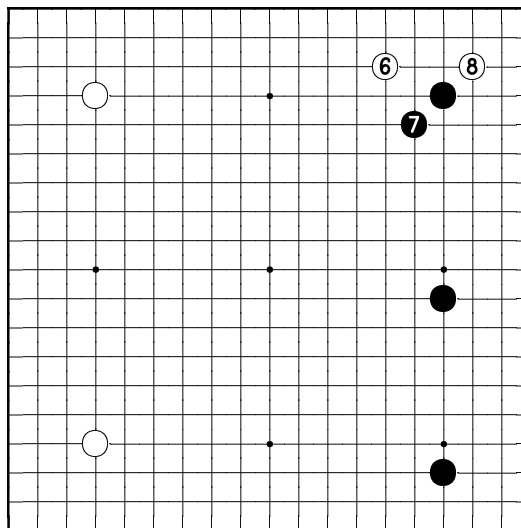

9 Move 13

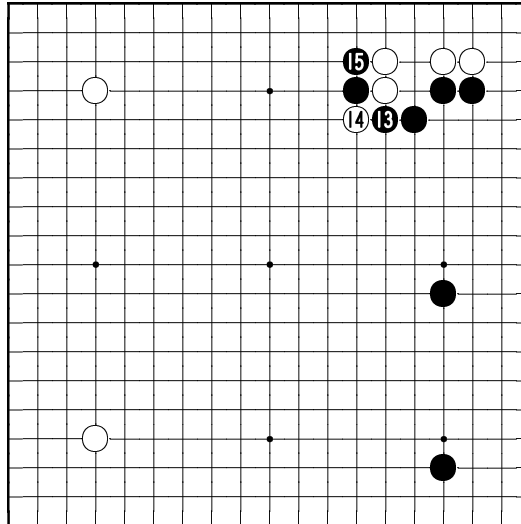

White wants to extend to A, but the triangle stone would only allow an extension to B.
Then I would have two weak groups. No good.

10 Move 8

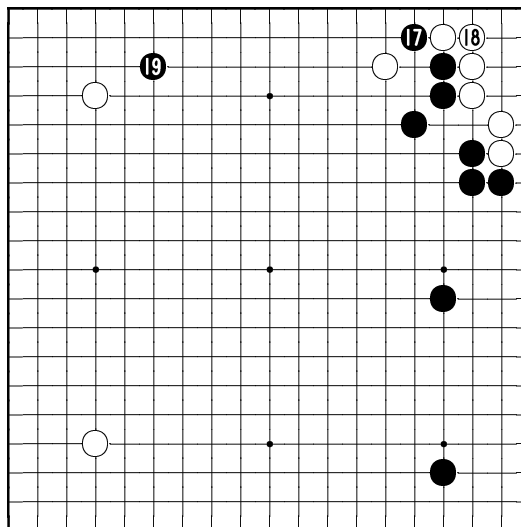

11 Move 15

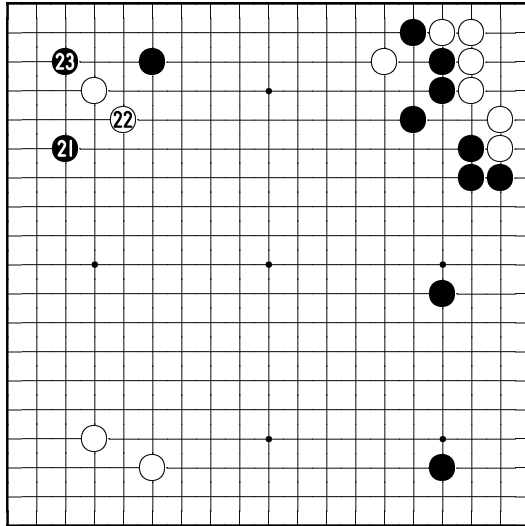

Fighting will favor black

12 Move 19

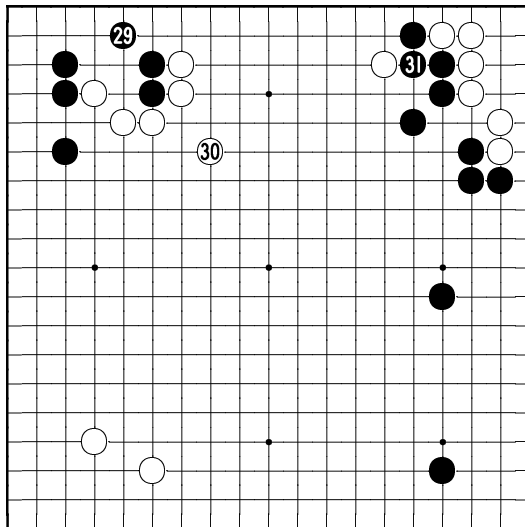

These next two stones by black are extremely frustrating.

13 Move 23

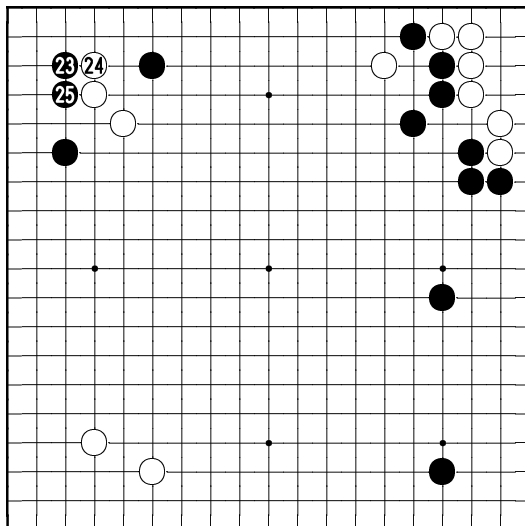

14 Move 31

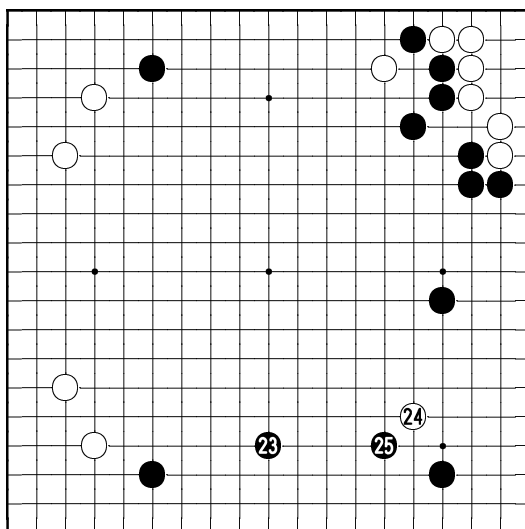

Perhaps this would be better.

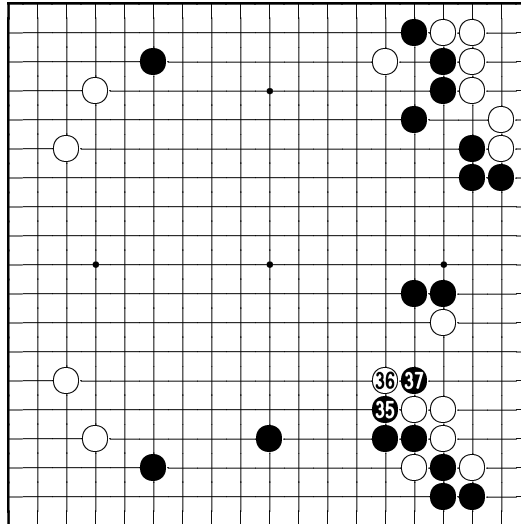

15 Move 25

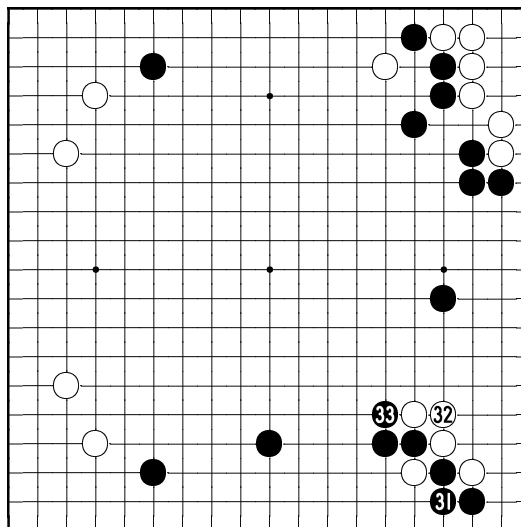

16 Move 25

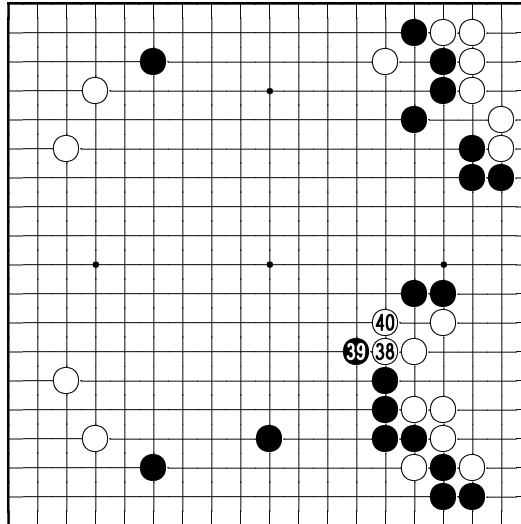

17 Move 37

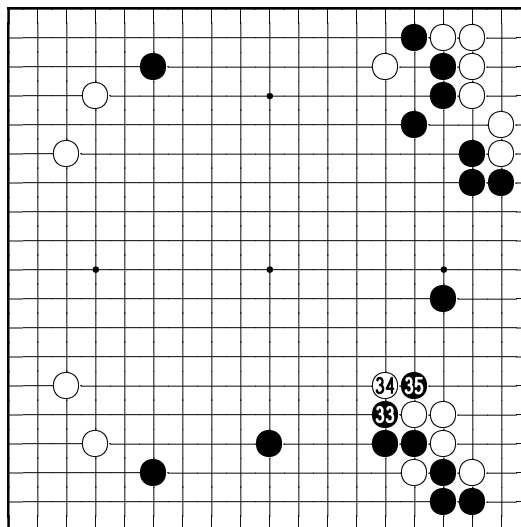

18 Move 33

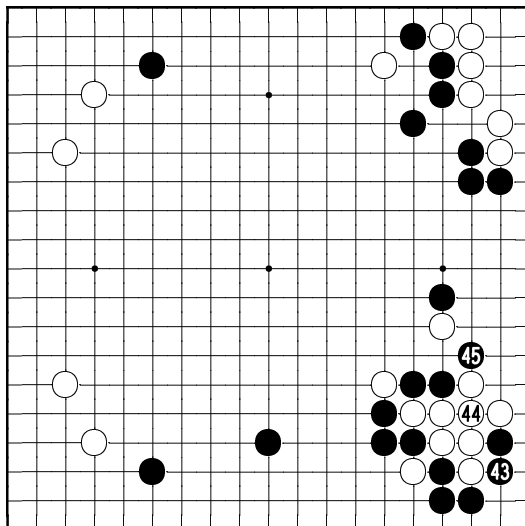

19 Move 40

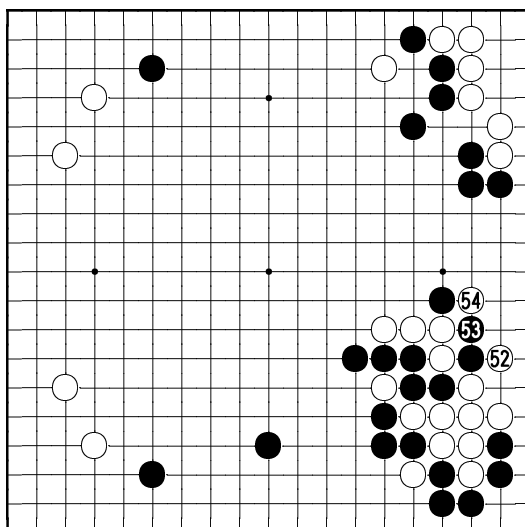

20 Move 35

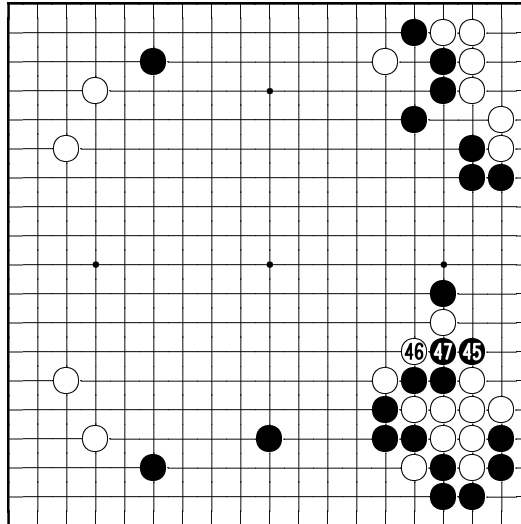

21 Move 45

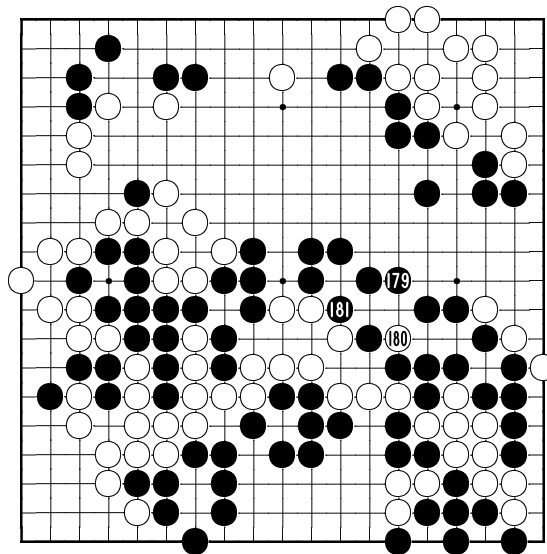

22 Move 54

23 Move 47

24 Move 181

Jarstar [1k]: Thanks
 Jetumi [1k]: thx
